Education Scholarship for Staff at NYGH Continuing Education

What is ESSNCE?

ESSNCE is a longitudinal faculty development program at North York General Hospital for staff and physicians to develop knowledge and skills in the area of “Education Scholarship”.

Through a series of monthly 90 minute workshops, participants will be mentored through the process from an idea to completion of a scholarly project related to education.

What is scholarship?

There are many definitions of scholarship, but most would agree that for scholarship to be praised it must be characterized by (1) clear goals, (2) adequate preparation, (3) appropriate methods, (4) outstanding results, (5) effective communication, and (6) a reflective critique (Glassick, Academic Medicine. 2000; 75:877-880)

What is involved?

The program consists of monthly 90 minute workshops (3rd Tuesday 4PM – January to December with a break for the summer) on topics that build on the core skills and knowledge required to complete a scholarly education project. In addition, each participant will be assigned a local “advisor” and have access to consultation with an “Education Scientist”. Participants will be expected to work through an education project – from idea to presentation. We are hoping that projects will be presented during Teaching and Learning Week in June 2017 and at a regional/national conference.

What are the goals of the program?

- Introduce NYGH staff and physician into the area of education scholarship.
- Develop NYGH staff and physician basic competencies in the area of education scholarship.
- Create an interprofessional community of practice amongst NYGH educators
- Support NYGH staff and physicians in their roles as educators

What if I can’t attend all the sessions?

We hope that participants will do their best to attend all the sessions. However we understand that everyone has competing interests.

What if I don’t have any ideas for an education project or want to understand what education scholarship is?

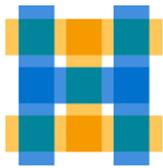

Not a problem. Come to our introductory session on either **Tuesday, November 17, 2015 at 4PM** OR **Tuesday, December 8, 2015 at 4PM** and learn what education scholarship is and how your everyday work related to education can be developed into a scholarly project.

Is there a cost?

We consider the program “priceless”. However for all participants there is no cost.

How do I register?

CENTRE FOR EDUCATION To register and for more information, contact us at the Centre for Education

Introduction to Education Scholarship

Are you a teacher or educator in the health professions?

Do you have ideas to improve teaching and learning?

Do you want to take your teaching to the next level?

Not sure how to get started?

The “Introduction to Education Scholarship” is a 90 minute interactive workshop to help guide you through what education scholarship is and how you can be involved.

Learn how to view your education ideas and innovations in a scholarly light.

Dates:

November 17th 4-6PM

-OR-

December 8th 4-6PM

(repeat of Nov 17th session)

NYGH, Academic Centre
