“The skills and experience I gained at NYGH have made me a better leader.”

“NYGH is a leading health system innovator, which meant I had the opportunity to work on a number of interesting projects that touched on both clinical and non-clinical areas of the hospital.”

“Beyond the actual learning I was able to obtain over the course of my 8 weeks there, I think one of the biggest things I took away was the culture of the organization has as big a role to play in your learning experience as the projects that you work on.”
