

CASTED

Casting And Splinting Techniques in the Emergency Department

*Designed specifically for
ED physicians and staff*

10.24

Toronto, ON

The “Hands-On”
ED Orthopedics Course

“CASTED WAS MORE RELEVANT TO MY PRACTICE THAN ALL MY MONTHS OF ORTHO TRAINING COMBINED”

— Dr. D.N., MD, CCFP

CASTED covers the full spectrum of extremity injuries that present to our Emergency Departments – upper and lower; adult and pediatric.

Using a combination of case presentations and ‘hands-on’ casting and splinting, **CASTED** will review:

- ED orthopedic principles
- ED management of over 80 specific diagnoses
- ED casting, splinting and reduction techniques.

Focus is on ED cases that are:

- common
- commonly missed and
- commonly mismanaged.

CASTED is presented by **Dr. Arun Sayal**, an emergency physician who also runs a weekly Minor Fracture Clinic at North York General Hospital in Toronto. He has presented over 100 ED orthopedic workshops and lectures, received over a dozen teaching awards, and all without ever mentioning the words “osteoclast”, “cancellous”, or “consider a 12mm lag screw”!

The day runs from 8am - 6pm and includes over 4 hours of “hands-on” with emphasis on:

- numerous ED fracture and dislocation reduction techniques
- proper molding and positioning
- appropriate use of removable splints

CASTED limits the number of participants per day to allow for more direct supervision and interaction. You are promised a day full of numerous clinical pearls that you will use on your next shift!
