COURSE DESCRIPTION AND OBJECTIVES

This conference will enhance the participants' skill and competence in the use of ultrasound in a perioperative and intensive care setting, with application for regional anesthesia, venous access and practical transthoracic echocardiography.

Experts in the field will lead small group discussions, lectures and hands-on workshops for ultrasound image acquisition and interpretation.

A half-day ultrasound cadaveric workshop will examine relevant anatomy and hands-on techniques.

ACCREDITATION

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification (MOC) Program of The Royal College of Physicians and Surgeons of Canada (RCPSC) and approved by the Canadian Anesthesiologists' Society (CAS).
