From 0910 #s exclude Genetics (previously included)

\*Inpatient Volumes reflect discharged cases and include Adult OMHRS cases

\*\*ED visits stats for FY1819 using triage visit date . Previous years we used Registration visit date

\*\*\*Numbers should be interpreted with caution as changes in registration practices may be contributing to volume changes (e.g. existing clinics that did not historically register patient visits that have started registering patients). 2013/14 # from BI. FY1718 using a new report neteza BI

\*\*\* acute beds: FY1718 beds are from finance based on the HAPS submission .Prior to FY1718 physical beds were reported .

Volunteer dept is using a new criteria to measure the number of volunteers from FY1314
