

North York eReferral

Introduction

North York General Hospital has introduced eReferrals, using the Ocean platform, to make it simpler and faster for primary care providers to securely refer patients for hospital services.

eReferral System

The Ocean eReferral system helps clinicians find a specialist, send a referral, keep a record in the EMR and track the status of referrals all from a single eReferral portal.

In Ontario...

11,000+
healthcare providers
use Ocean eReferral
system

19,000+
eReferrals sent
every month

15,000+
appointments
booked online
monthly

97%
of patients report
improved experience

At NYGH

NYGH is among the first GTA hospitals to offer physicians, clinicians and patients the Ocean eReferral platform.

Benefits for You:

- eReferrals save time and increase the quality and transparency of referrals.
- eReferrals make it easier for clinicians to work together and coordinate patient care.
