

Put a Call on Hold in a Teams Meeting

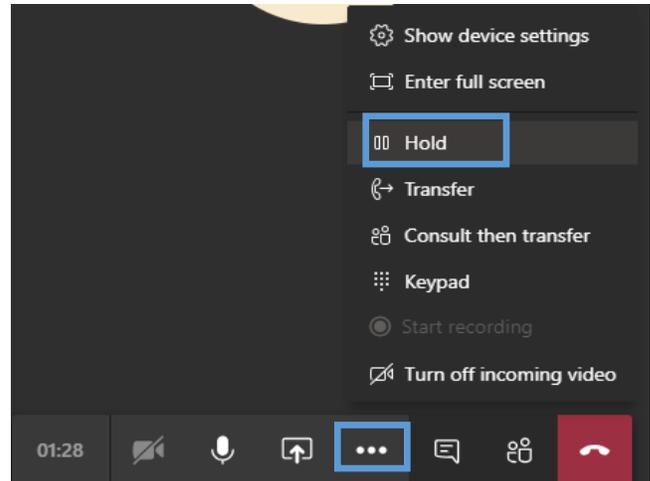

You can put your Teams call on Hold during your call and Resume later.

1

Move your cursor on the screen to bring up the Meeting controls bar. Click on **More actions** *******, Select **Hold**. Everyone in the call will be notified that they've been put on hold.

People on hold (including you) won't be able to see or hear anyone else on the call. Screen sharing is also temporarily suspended. Everything will return to normal once you resume your call.

2

You can continue your call by clicking on **Resume**.
